## Time Rushes On

SCENE: Large department store on Bargain Day.
TIME: 1959. A man and a woman collide violently in the rush. The woman glares at the gentleman. Slowly her indignation turns to amazement.

SHE: Aren't you Mr. Bates, former coach at Monroe?
HE: Yes, I used to coach there. You must be Miss Blossey who was Senior Class Adviser with me.

B: That's right, I certainly didn't expect to meet you here. It's been a long time-

C: I should say it has-1939. Do you remember the Senior Class of that year?

B: I certainly do. They were a fine bunch of students.
C: I was up to Monroe a few months ago and looked some of them up. Others I've chanced to meet. Let's see-Do you remember Glenyce Meyer? She's a police matron in Los Angeles now. She has a splendid record. Albert Zevenbergen is a policeman there.

B: Have many entered into the business world?
C: Quite a few-Ada Voy Allpress works as a secretary in Washington, D. C.; Joyce Andrews is cashier at a J. C. Penney Store; Pat Keech is private secretary to a business man in Seattle; Richard Hirsch is manager of Sears, Roebuck and Co. in Portland. A few are holding teaching positons-Norma Foye, Celia Hutchins, Tony Zevenbergen and Beatrice Brady. Surprising as it may seem, Wilfred Cedergreen is an English professor. Harry Bennett is head chemist of the Du Pont laboratory in New York City. He often visits Cecle Self who is married and living there. Lucian Williams operates a large meat market in South Seattle. Emma

Flodin writes a style column for the Canadian Daily Star. Lorraine Harrison is a reporter for Hearst Newspaper. Eclista Murdock, Alberta Vredevelt, and Rose Johnson have made marriage their careers. Jack Riley was the first one of the class to be married. He works for the Great Northern Railway. Anna Lee Gardell who is married lives at Duvall.

B: How many have entered the medical profession?
C: Only a few-Wallace Mortenson is an interne at a hospital in Alaska where Pearl McLean nurses. LaDonna Walters is also a nurse. Willard Rohde has a large farm somewhere in Montana. No one seems to know much about him. Walter Keck and Wallace Middleton are instructors in the Agriculture Department at W.S.C. Some of the boysArt Hewitt, Verle Smith, John Taylor, Bob Dickison, and Bob Kazen are still farming near Monroe. Essy Carlson works for Dentyne Gum, Inc. posing for their perfect teeth advertisements. George Bergerson is one of the staff artists for a McFadden Publication. Margaret Clarin is making her third concert tour through England. Bill Byrns, who is a traveling salesman, is still following her around. Delton Davis owns a large poultry farm. It's rumored that Gertrude Geyer has a steady job gathering eggs. Norma Handley is a missionary in South Africa. Fred Byrns, an ice-man in Hollywood, is attempting to get into the movies. Paul Middleton sings on the N.B.C. Network. He is sponsored by the Beauty Rest Mattress Company, that is managed by Bob Henderson. Mel Kauffman is one of the up and coming directors at the Metro-Goldwyn-Mayer Studios in Hollywood. By the way, Miss Blossey, if you should ever go through Sultan, don't neglect to stop at Dunlap's Confectionery and have one of Jane Ann Law's delicious sodas.

B: What is Anna Biderbost doing now? She had such a splendid record in high school.

C: She was a teacher at the University of Washington but her mind broke under the strain. She is now confined at Sedro-Wooley. Archie Donovan is to enter the Northwest Tennis Championship soon. Marion Nelson is working at a soda fountain in a Seattle Drug store. John Whitaker is manager of the chain of stores for which she is working. Doris Watson lives at Beverly Hills, California.

B: I read about Ethel Riley and her dance troupe making a tour of South America where they called on Marvin Moore the Minister to Chile.

C: Yes, and that reminds me, Don Odell is a mining engineer in Mexico, and Erle "Frank Buck" Thomas has become famous as a big game hunter in Africa.

B: Did you hear about Neva Martell's latest adventure? She just made a record, flying the new 150 -passenger air liner to Tokyo last Tuesday.

C: Yes, I read that. I also heard that Emma Bevensee had founded a girl's school at Sydney, Australia, and that Alma Kast was her chief dietician.

B: Have you heard anything about Sterling Campball lately?
C: Oh yes, after his contract with the Walt Disney Corporation expired, he began a serious study of art and is now painting in Paris.

B: What are you donig now?
C: Oh, I'm a life insurance salesman. Teaching kept me tied down to one place too much. Which reminds me-I was supposed to meet my family near the elevator here. They're probably lost in the rush of such a big city.

B: Well, that's just my line of business now-private detective. I got my start back in the Monroe High School study hall. Now, what are the descriptions? (She takes out note-book and the two forget the class of ' 39 in the more urgent business of the present.)

## Class History

A group of merry freshmen stepped over the threshold of the Monroe Union High School and with a look of amazement in their eyes were introduced to the wonders of the school. At our first class meeting we elected Wallace Mortenson as our president, assisted by Delton Davis and Dorothy Merrier as secretary-treasurer. During the year we participated in a one-act play contest by presenting the production "Weiners On Wednesday."

A stepping stone in our careers was marked when we became Sophomores. Our capable leaders of this year were Neva Martell acting as president, John Whitaker as vice-president, and Margaret Clarin as secre-tary-treasurer.

At last upper-classmen we showed remarkable progress. Our officers were: president, Delton Davis; vice-president, Jack Riley; secretary, Marion Nelson; and treasurer, Anna Lee Gardell. We reached the height of our careers with the production of the three-act comedy of adolescence, "Growing Pains." The leading parts were played by Mary Davis and Frank Stansberry. In the spring amid clowns and lions we entertained the outgoing seniors with a banquet.

The officers of our senior year were: president, Walter Keck; vicepresident, Tony Zevenberger; secretary, Margaret Clarin; and treasurer, Celia Hutchins. During this year we violated all traditions by voting to graduate in caps and gowns. After four years we are at last preparing for those final graduation exercises, which everyone is looking forward to, not because we are glad to leave a school we have so much enjoyed but because it marks another step in our progress.

It has proved a very successful year for them. The main social event of the year was the Hard Time Costume dance at Hallowe'en.

A new system of headlining the important news of the week replaced the old-that of dedicating each issue to something.

The biggest project of the year was the writing of the dialogue for the All-Hi Vodvil. This group also wrote a script for a radio broadcast over Station KRKO of Everett.

## Basketball

This year's Basketball squad made School History by all around excellent basketball playing. The year proved fruitful for the cagers and the season was joyfully and successfully ended by the Bearcats bringing home the greatly co\%eted honor of County Championship. At the end of the conference games and the beginning week of the County-Island tournament found Monroe tucked neatly into fourth place. The peak of excitement was reached when the Bearcats were to meet the Panthers for the play-off for first place in the tournament.

With the Snohomish Gym bulging with eager Monroe p:omoters, the Bearcats hit an all-high in fighting terms, and never let down until two minutes after the time-keepers decided that Monroe successfully had won the battle and the championship.

In the week of March 6th, the boy's jogged up to Bellingham to take a crack at the District Tournament. Monroe was outclassed by the larger schools of Blaine and Sumas-Nooksack.

The list of games that Monroe participated in are given below, as well as the scores.

## Football

The Monroe Bearcats closed a quite successful gridiron season by going down fighting to the Snohomish Panthers 14-6. Although the winning side of the ledger wasn't so encouraging, in every game that was lost, the Bearcats went down to defeat fighting. Three of the league games were lost by the Bearcats because of some very bad breaks. In the Edmonds game, with 30 seconds left to play, the opposing team completed a pass and made the conversion good, to win 7-6. In almost every case, the aggressive Bearcats gained more yardage than their opponents.

The following boys won their numerals in football for the season of 1939: John Whitaker, Marvin Moore, Jack Riley, Tony Zevenbergen, Willard Rohde, Fred Byrns, Wallace Middleton, Walter Keck, Leonard Simons, Delton Davis, Clifford Gregory, Marvin Steen, Kenneth Schlilaty, Sterling Campbell, Walter Rohde, and Lee Henrickson.

## Boys' Tennis

To earn a letter in Tennis, the players have to win out in the preliminaries and play in the County Tournament.

The team for " 39 " was composed of:
Ist Singles
Archie Donovan
Second Singles
Buron Main

## Track

With a larger turnout than we had last year the Bearcat track team has made a fairly good showing in the meets held so far. While there was only one first team letter awarded last year, three or four boys should earn one this season.

The following boys turned out regularly and competed in the meets: Marvin Steen, Douglas Kindle, Bill Burt, Wallace Middleton, Bob Cook, Ray Greenside, Frank Otieni, Joe Sherwood, Clifford Gregory, Willie Gregerson, Kenneth Schtilaty, Jack Armstrong, and Jack Blanken.

## Baseball

With baseball interest rising to a new peak this year, a large group of future stars answered Coach Bates' initial call, Monday, April 17. With many lettermen returning to the fold, which Coach Bates has to use as his nucleous, to build the Monroe Bearcats. ## Girls' Sports

Speedball is the fall sport. After many hard fought battees the championship was won by the combined Junior and Senior team. Playday was held at Edmonds.

The volleyball championship was won by the Seniors. Playday was held in Snohomish. There were two new rules put into play this year. One of them was that you could not help the server on the second serve, and the other that you can hit the ball twice in succession.

After several close games the Freshmen won the basketball championship. This showed that the Freshmen have real athletic ability, and that they know how to make good use of it. Playday was held at Stanwood.

Baseball is the spring sport. As the annual is being printed too early for the spring playoffs, the title holder cannot be published, but it looks as if there will be quite a battle for the position this year.

Tumbling turnouts were held during the winter and the girls were allowed so many points for the performance of each stunt completed satisractorily. The girls with the most points composed the team listed below: N. Foye, M. Halverson, A. L. Gardell, B. Austin, A. V. Allpress, H. Lindner, E. Schmidt, M. Hirshey, H. Haji, B. Hopkins, R. Foye, M. Storey, M. Watson, L. Donovan, A. Materjohn, D. Miller, and D. Steen.

Archery is another of the minor spring sports. Some new equipment was bought and very much appreciated. The girls' shooting is much improved and the girls are working toward a tournament. Miss Bernhoft wants to organize an archery club.

Badminton is a new sport and lots of fun. The tournament has not been finished but in the doubles, Furlong-Taylor and N. Foye-R. Foye are tied for first place.

Ping-pong was very popular with the Freshmen during the winter. The tournament was not completed but will be in the spring.

Horseshoes, croquet, and hiking each has a group of enthusiasts in the spring.

The tennis team will play tournament matches with all of the other schools in the county. The team is composed of First Singles-Neva Martell; Second Singles-Jane Alles, Norma Foye, and Myrtle Rocco; First Doubles-Mildred Graham and Mary Furlong; Second Doubles-Bessie Taylor and Patricia Currie.

The track turnouts have started, and there is quite a large group of girls turning out. There are many Freshmen, with Sophomores and tho upper classmen having about the same representation.

## Arts and Hobbies

The arts and hobbies class, under the direction of Mr. Waltz, was expanded this year to include Art, Photography, Mechanics, Model Airplanes, and some Morse Code.

At Christmas time the class painted a very beautiful scene representing the birthplace of Jesus Christ. The scene, with lighting effects at night, was displayed at the Waltz's home.

On Abraham Linzoln's and George Washington's birthdays, pictures pertaining to outstanding events in their lives were made and displayed by the class.

The Art Class has been responsible for the signs and posters telling of school plays and functions.

The Photography Class was a new undertaking this year, and proved very interesting. They read and took notes on "Taking Pictures," "Necessary Equipment for Developing Pictures," "Procedure," and many other interesting items. Mr. Hanna was a great help in the developing and printing of the pictures.

## Booster Club

"Keep behind the line!" they say at football games.
"You kids can' $\ddagger$ sit there-that's reserved!" you hear at basketball games.
"Keep off the track!" is heard at track meets.
That's the Booster Club speaking. They're not as awful as they sound.
The duty of the Booster Club is to officiate at games. Members bought black sweaters with an emblem-a Bearcat-for an official Booster costume. Each year of service entitles the member to a chevron.

The Booster Club is composed of a boy and girl from each class. Seniors-Frank Stansberry, president; Marion Nelson; Juniors-Douglas Kindle, Ruby Etter; Sophomores-Mike Lazuire, Ella Mae Hegawald; Freshmen-Burton Main, Natalie MacCarty.

## Library

The Library of the Monroe Union High School is a popular resort of most students. It not only is helpful to the student body but also offers diversion and entertainment in the well-chosen and varied selection of books. Under the following well-trained student librarians, directed by Miss Blossey, the work of the library is carried on very successfully and quietly:

## SHE'D LOST THE POINT

A safety authority was quoting accident stätistics in a western college. In his audience were two flappers.

Out of bright red lips came this question: "What does he mean, Lulu, when he says 12 point 5 men are killed out of each 1,000 injured?"
"Why Betty," said Lulu, "He means 12 are killed and 5 are at the point of death."

The employer had been hearing many unfavorable reports about one of his clerks. One morning he called the young men into his private office.
"I hear you are a clock watcher," he said sternly. "Is it true that when the clock is at 5 , you put down your pen and go home, even if you are in the middle of a word?"
"Certainly not, sir," replied the clerk indignantly, "Certainly not. If it gets as near 5 as that, I never begin another word at all."

Mr. Richardson: And how did you enjoy your ride on horseback?
Miss Bernhoft: I never thought anything that was filled with hay could be so hard.

Miss Meyer: Can you type?
Ethel R.: I use the Columbus system.
Miss Meyer: What's that?
Ethel R.: I discover a key and then land on it.
The school inspector had been questioning the class for a considerable time. Presently he said:
"I wish I were a boy again and back in the school." He paused, "Do you know why I wish that?"

For a second or two there was silence. Then a grimy hand went up. "Well?" asked the inspector.
"Cos you've forgotten all you ever knowed," said the youth.

The teacher of a school had sent a note home with Jennie, asking her parents to buy her a grammar, and received the following answer:
"Missus Teacher: I do not desire that Jennie shall ingage in grammar, as I prefer her to ingage in more useful studies, and I can learn her to speak grammar myself. I went through two grammars and can't say as they done me no good anyhow."

From a grammar test: "Define an abstract noun."
One pupil wrote, "An abstract noun is one that cannot be heard, seen, touched, or smelt."

Miss Blossey: "Write a sentence with the word 'Analysis' in it."
Warrane Wall wrote: "The teacher told us to look up the word 'Analysis' in the dictionary."
